A LADY at Circleville, Ohio, unintentionally did something, the other day, towards reducing the public debt. She made a "safe" of the oven of her cooking stove, depositing therein for safety over night, a roll of bills amounting to \$141. Next morning, having forgotten all about it, she built a fire in the stove, and when she betthought her self to look after her deposit, she found it burned to ashes, except a few dollars in silver change. Another argument in favor of hard money.

WINDING, THE ORATOR. — The Washington correspondent of the Chicago Times thus alludes to Winding, the Illinois orator, who is now engaged in the laudable enterprise of answering the absurd doctrines of Bob Ingersoll.

The lecture of Mr. Winding in answer to Ingersoll is the subject of conversation in varied circles. Judge Shelaharger, one of the counsel of the electric commission, pronounced it one of the finest efforts he ever heard. Judge Davis is equally emphatic. Congressman Martin I. Townsend, of New York, calls him the finest orator in America. Senator Ferry came upon the stage at the close of the evening, and requesting an introduction, paid most exceptional compliments to the young Illinoiser. "The grandest thing I ever heard in my life," puffed Pillsbury, of Michigan. "Where has Illinois been keeping this young man all the time?"

In Philadelphia the bells of the church of St. Mark were thought to be such a nuisance that the inhabitants of that city went to law to obtain their release. This bell lawsuit has been lately decided by the Supreme Court. The lower court absolutely forbade the ringing of the bells, but the Supreme Court permits them to be rung every day of public worship, though not before nine o'clock in the morning nor after eight o'clock at night. They may be rung also on Washington's Birthday, the Fourth of July, New Year's Day, Epiphany, Ash Wednesday, Good Friday, Ascension, Thanksgiving, All Saints, Christmas, and for marriages and burials.

FROM KANSAS.

PAINEKIN, FRANKLIN CO., KAN., April 22, 1878. — Dear Sir, Enclosed please find subscription for your weekly paper. We are having fine weather, a good shower of rain once a week or so. Cattle run live well on the prairie. Corn planting is well advanced, some are done and have corn nearly large enough to plant. Oats are all up and looking fine. Wheat heading out. Prospects for fruit of all kinds never better. Emigrants still coming. Real estate agents smiling and happy. Corn, 25 cents, oats, 20 cents; wheat, 42-45; eggs, a nickel. Friends Hansen & Mosser, I am glad to know you are publishing the leading paper of the county. Success to you. Respectfully yours, R. H. STEWART.

THE interests of labor and finance are receiving official attention at the hands of our Government. Secretary Kevins, of the Department of State, has recently sent a circular to officers in our foreign Consular service, requesting reports on the following subjects: First, price of labor among laborers of all classes; second, cost of living of laboring classes; third, comparison of the present cost of living and rates of wages with that for the last ten years; fourth, the cost of the produce and its market price; fifth, the amount of paper money in circulation, and its relative value to gold and silver, together with its fluctuations during as many years as can be accurately obtained, and the causes which have produced fluctuation. In view of the conflicting statements of various political philosophers, the information thus obtained will tend to clear up much of the fog that would otherwise probably envelop the country during the approaching campaign. — Chicago Journal.

The Ladies and all those using Zephyrs, will please bear in mind that the largest stock of Uhlman's best imported Zephyrs is kept at Gannaway's, in all shades, and since Jan. 1st, 1878, has been reduced to 15 cents per couple. Crevell Wool in all useful shades at 10 cents an ounce. In Can was and perforated card board notices, and the best stock of Notions and Kid Gloves, the ladies will always find Gannaway's the place where they can buy the cheapest. — apr 22-1878

GALVESTON, Ill., April 22.—Last night a terrible storm struck this city, the hail being of prodigious size. The stone measured eight inches in circumference. The storm came from the west, and for a long time before it reached here the clouds assumed an uncommon and mysterious appearance in quick rotation. For upward of an hour it was thought that the city would be visited by a tornado. Much glass was broken, and many fruit trees badly damaged. At Buca, east of here, houses and stocks of goods were damaged by hail and rain.

A Good Cigar costs the smoker no more than a poor one, now that Hubbard & Sweeting's "Tomb's (Gen. Carter) 25 for 15 cents.

WASHINGTON NEWS.

LONDON, April 22.—In spite of the negotiations concerning the simultaneous withdrawal of the Russian forces and English fleet from the neighborhood of Constantinople, the prevailing feeling of the English press is one of great uneasiness. It is noticeable that all the Berlin specialists to the English papers are couched in very despondent tones. They dwell upon the difficulty which will be encountered in settling the details of any scheme for withdrawal. Vienna correspondents write in the same tone. One says the aspect of affairs is neither better nor worse. The course of the negotiations makes it more and more apparent that Russia means to make any concessions relative to the Congress dependent on some arrangement relative to the position of her own and the English fleets. The fact that the Russians did not reject the idea of withdrawing to Adria, and that negotiations have been pending on that basis, shows that they would set great value on the withdrawal of the British fleet beyond the Dardanelles. Still, as Besika Bay is only about twelve hours' sail from Stambul, while Adrianople is at least three days' forced march distant, the Russians thought they would be placed at a disadvantage unless some arrangement was made by which, in the event of an outbreak of hostilities, some priority of movement was allowed them. This seemed to raise the whole question of equivalent to be given by the Russians for the withdrawal of the fleet. Nor is it clear whether their claims have created a stumbling block which cannot be surmounted. There are also indications of other difficulties. Thus, even if the Congress meets, months may probably pass before it solves all the questions before it, and if the Turks meanwhile evacuate various points in accordance with the treaty of San Stefano, and Russia proceeds to carry out the various constitutional reforms prescribed therein, the Congress will every day be confronted by some new accomplished fact; but the Russians are not likely to stay the execution of the treaty (ill) after the Congress, as that would be a direct admission of the right of the Powers to revise the treaty.

The Austrian Ambassador to Germany has come to Vienna for a few days. This is connected by some with the reports of a preliminary conference at Berlin. If such a Conference should be held it would be a test whether it is safe to summon the Congress. The failure of the preliminary conference not being thought likely to involve such serious consequences as a break-up of the Congress, the latter event could hardly fail to produce direct antagonism.

A correspondent at Berlin, of the Daily News, remarks that not much interest is attached to the present negotiation as long as Russia and England continue active warlike preparations. The English papers abound in significant items concerning the preparations. Thus it is understood that five batteries of the Royal Artillery, now at Woolwich, have been selected to proceed to Malta. Gunboats and flotilla are to be prepared immediately for the defense of the British coast.

DEADWOOD, D. T., April 22.—The severe rain storm of Saturday and yesterday was followed last night by heavy snow, which is still falling; and at this hour, 12 m., to-day covers the ground to the depth of twelve inches on the level. The creeks are still rising, and considerable alarm prevails in consequence. No accurate estimate can be formed of the damage done by high water at present. Several houses in town had to be torn down to prevent their falling into the stream and drowning it up. The placer mines have sustained the heaviest loss, because of their dams breaking away and the water rushing into the diggings, causing the shafts to cave, or fill up with sand and gravel. Their loss through the destruction to sluice-boxes, etc., is heavy. The roads between the hills and outside camps are impassable.

CHICAGO, April 22.—The elevator of the Howe Sewing Machine Company fell from the roof to the basement, this afternoon, with ten persons, a distance of eighty-five feet. Only one escaped unhurt, but none were dangerously hurt. The elevator was largely overloaded, and it was only made to carry eight hundred pounds, and the small cables parted after the descent began.

WASHINGTON, D. C., April 22.—Senator Blaine offered the following resolutions in the Senate:

Resolved, That any radical change in our present Tariff laws would, in the judgment of the Senate, be impolitic; would seriously damage the business interests of the country, and would seriously retard the progress of the country for which all should earnestly co-operate. Resolved, That, in the judgment of the Senate, it should be the fixed policy of the Government to so maintain our tariff for revenue as to afford adequate protection to American labor.

The Republican leaders decided that it would be the wisest policy to allow Montgomery Blair's resolutions to go to the House Judiciary Committee, without further discussion or further opposition. They were influenced to this course by the statement of members of that committee that the resolution would never be reported back to the House, but would be consigned to an endless sleep. Accordingly, when the resolutions came before the House to-day, they were sent to the Judiciary Committee without objection.

The morning hour was devoted to a call of the States for bills for reference. The regular order being demanded, Mr. Butler's motion to suspend the rules and pass the bill directing the Secretary of the Treasury to reissue fractional currency and \$1 and \$2 notes to the amount of one-sixth of the whole amount of legal-tender notes outstanding was submitted to the House. The House Banking and Currency Committee had acted on the bill favorably, and this fact was stated to influence votes. On the roll call the motion was defeated, the yeas being 120, and the nays 121.

In the Senate, Mr. Voorhees submitted an amendment to the Finance bill, providing that custom duties may be paid on and after the passage of the bill, instead of the first of October, as provided in the committee's bill.

Mr. Mitchell made a long speech in favor of the bill extending the time for the completion of the Northern Pacific Railroad.

Mr. Reagan (in the House) moved to suspend the rules and pass, without debate, the River and Harbor Appropriation bill. Mr. Cox (Ky.) made a point of order that the bill contained appropriations that were unconstitutional, and that money was appropriated to improve creeks which had no commerce.

The Speaker said that this was a question for the House to determine for itself. The bill was then read at length. It appropriates over \$7,000,000.

DECATUR, IOWA, April 22.—A tornado struck the town of Pomeroy, a station on the Illinois Central Railroad, west of Fort Dodge, Iowa, last evening, blew down the houses of George Wallace, Samuel Gill, Mr. Tierney, and Mr. Pearce, and killed the son of Mr. Wallace, and also Mr. Pearce's, and wounded fifteen or twenty other persons. Full details are awaited with great anxiety. The town was small containing not over twenty houses.

Fort Dodge, Iowa, April 22.—A conductor and passengers from the West report that a terrible tornado almost destroyed the village of Pomeroy, thirty miles from here, on the Illinois Central, in Iowa. It occurred at 6 o'clock last evening. Two people were killed outright, and not far from twenty more were injured. Miles of telegraph wires were blown down.

St. Louis, April 22.—On the 16th of April there was a body caught in the river below Fort Charless Landing, Ill., and had the appearance of having been in the water about nine or ten weeks; had marks of violence, skull fractured, and the resemblance of a pistol wound in the left side. The description given tallies in some respects with that of Judge William J. Mayo, who disappeared on the evening of the 17th of January last, when he left the St. Louis Union depot on the Ohio & Mississippi train to go to Olney, and was seen on the train by the conductor immediately after the bridge was crossed. He was not seen on the train when it left the relay depot in East St. Louis, and what became of him is a matter of mystery. Judge Mayo was on his way to Olney to be elected President of a bank, and there were large money interests involved in his disappearance. He was the chief witness in a suit on which depended something like \$50,000.

FINDLAY, O., April 22.—News of a sensational elopement in Jackson township has just been received here. Curtis McEvoy, a young music teacher, it is said, has fled with Emma Mann, a girl only fourteen years of age, the daughter of Horace Mann. Cause, paternal opposition. It is alleged that McEvoy secured a license by swearing that the girl was of age. The pair were married by a Justice of the Peace, took the train, and have not since been heard from. The father of the girl was informed, and have filed an affidavit against McEvoy, charging him with perjury. He pursued the pair to Forest where all three of them was lost.

SAYS THE NEW YORK TRIBUNE.—It is intimated that the studious quiet of Judge David Davis means mischief for other democratic presidential aspirants. He has been the workman's candidate once, and may turn up at a critical moment close in the embrace of the national. He isn't making much record, but what there is of it is of the same quality as Hendricks', and possibly a shade better.

CAIROVILLE, ILL., April 22.—To-day is the fifth day of the Armour murder trial, and the defense closed their evidence this afternoon. The case now goes to the jury. Nothing of importance was proven on the part of the defense, except that Armour fired the first and fatal shot at Newberry while one knee was yet on the ground, and the second shot before he was up straight, and that Newberry was not more than three feet from him, and not erect.

DEADWOOD, April 22.—The secret storm ever known in the Hills has been raging since the night of the 16th. The heavy snow, rain and hail doing much damage. The Belle Fourche river, here, before crossed by the Bismarck stage, is now three miles wide and very deep.

WASHINGTON, April 22.—The House, this afternoon, after a scene of great confusion, passed the river and harbor appropriation bill, appropriating \$7,000,000. Mr. Cox, of New York, entered a protest signed by twenty-eight members, objecting to the passage of the substitute proposed by Mr. Reagan, for the following reasons:

First.—That its large amount requires debate, instead of passage under a suspension of the rules.

Second.—The House rules are intended to prevent voting in gross upon such appropriations; each item should be considered separately.

Third.—The right to consider appropriations in Committee of the Whole, or in the House itself, should be sacredly maintained.

Fourth.—A bill of this nature virtually violates the Eighth Article of the First Article of the Constitution. When a bill threatens the Treasury, such a bill is an unconstitutional burden on the tax payer.

It is signed by Messrs. Knott, McKenzie, Blackburn, Springer, Lott, Clymer, Willes, Finley, Beebe, Jones, Carr, Caldwell, McMahon, Hewitt, Fort, Sparks, Tamm, Neal, Gardner, Borge, Robinson, Candler, Stenger, Rice, Dickey, Hamilton and Edie.

Can you, April 22.—The run upon the bankruptcy court continues. The number of petitions filed to-day will run up to thirty, but the liabilities of the petitioners cannot be larger, neither are the assets.

Amson B. Mager. Several debts, \$17,000, unsecured, \$22,000, bills discounted, \$127,000, assets nominal.

MURRAY.—This morning William and Harry Wise, sons of E. B. Wise, of this city, were driving a span of mules hitched to a spring wagon northward on Water street. When the team came to the railroad track the animals were frightened by the cars and became unmanageable. They ran a short distance when a tug became entangled, which let the mules run forward, as to get the wagon tongue loose from its fastening to the harness, and it dropped upon the ground. This threw the wagon over and the boys out. One wheel of the wagon passed over William, bruising one hand badly, and giving him a pretty bad jar. As Harry fell upon the ground one wheel of the wagon rolled over him, crushing him. The boys were on his feet in a moment, and soon had hold of the team, while Harry was carried to the residence of his sister-in-law, at the corner of Water and Mason streets, where he was watched by Dr. W. J. O'Connell. Though he was badly injured, and his head somewhat lacerated, it was ascertained that his injuries were not serious. The wagon was considerably broken, but the mules were unharmed, except their ears. The mules and wagon belong to Mr. Samuel Wise, of Macon, brother of the injured boys.

The Daily Republican.

Figures of Wisdom.

It is only the calm waters that reflect
heaven in their breast.

In being angry we punish ourselves.
Avarice is the chastisement of the
rich.

The only way to have a friend is to
be one.

Men are never so ridiculous by the
qualities they possess as by those they
affect to possess.

Men are like words, when not prop-
erly placed they lose their value.

Health is the foundation upon which
all happiness is built.

Conversation is the ventilation of the
mind.

Humility makes all graces amiable.

Never Known to Fail.

Dr. Morris' Syrup of Tar, Wild Cherry
and Horehound has never been known to
fail in permanently curing obstinate
coughs, colds, croup, whooping cough,
or any disease of the respiratory organs,
and it does it, too, at once. It is not
necessary to take it for a long time before
you can discover its beneficial effects.

Its sale in this community is immense,
and its popularity universal. It should
not be classed with compounds put up by
imperfect hands. Do not fail to give
this great and potent remedy a trial. It
will not and cannot disappoint you. Try
it once. Trial size 10 cents. Regular
size 50 cents and One Dollar. For sale
by Dr. A. J. Storer, druggist, Decatur.

Also agent for Prof. Parker's Pleasant
Worm Syrup, which never fails. Please
ask to take and requires no physician. Price
25 cents.

mon tobacco, when they can buy Marlboro
tobacco, which they can find at the same
price?

March 8th - 1917.

A large proportion of the American
people are today suffering from the effects
of Dyspepsia or indigestion. The result of
these diseases upon the masses of intelligent
and valuable people is most alarming, making
life a burden instead of a pleasant existence
of enjoyment and usefulness. The cause of
these diseases is not far to seek. It is the
fact that you will only grow older, weaker
and sicker, the advice of Druggists and
your friends, and try one bottle of
Greer's Astringent. You will find it a
blessing. Millions of bottles of this
medicinal have been given away to try its
virtues, with satisfactory results in every
case. You can buy a sample bottle for
10 cents to try. Three doses will relieve
the worst case. Positively sold by all
